A BOOM ALL AROUND. an Francisco Falls into Line with an Advance in Values. Advance in Values.

San Francisco, August 22d.—[Special.]—
Within the last 30 days the prices of San Francisco real estate have taken a strong upward tendency, and the selling figures to-day are a full 15 per cent. higher for outlying city property than they were a month ago. In several instances the advance has even been much greater than this. The rise in prices has not been the cause of any excitement. It has been so gradual as not to "take on" the appearance of a boom.

of a boom.

The reasons assigned for this seems to be well-grounded. The real estate agents say there is nothing wonderful in it, and for two reasons—first, that all real estate on the San Francisco peninsula has, since the "caving" of the Comstock mines, been below its par value. Secondly, that as the city increases in population so also must the peninsula of San Francisco, like that of New York, show a marked advance in real estate values.

A prominent real estate broker said to-day that there is nothing surprising in the advance to any one who has ever studied the limits of land on the peninsula. Those who could buy outside lands had not done so when the figures were much lower than they were even thirty years ago.

years ago.

One well-known instance in the city to-day will suffice to show 1 ow rapidly these outlying city lots are jumping in value. Captain Lees, of the detective force, made up his mind on Saturday last to sell a cluster of lots that he had lying between the Western Addition and the Cliff House. He had been offered \$25,000 for them, and he thought it was a good enough price to sell at. Being, however, a cautious man, he went and asked the opinion of two real estate agents familiar with the lands in that locality. One of them told him that if he would wait till the Monday following he believed he could find him a purchaser at \$30,000. Captain Lees said very quietly that he would wait. In the meantime the other real estate agent, knowing the value of the lots, busied himself in the matter, and on Monday also came to Lees and said that if he was willing to sell he had a purchaser at a price above the \$25,000 mentioned on Saturday and Lees told him that he had good reason to believe that he could have \$30,000 for the lots before the sun went down, and the result of it is that to-day Captain Lees was paid \$36,000 for those outlying lots for which on Saturday he was ready to accept \$25,000. There are two other similar instances, but for smaller sums.

The Southern Pacific Company Do Not Object to Reduction.

Object to Reduction.

SAN FRANCISCO, August 22d.—[Special.]—A conference between the Railroad Commissioners and officers of the Southern Pacific Company in reference to Commissioner Abbott's proposition to reduce freights and fares throughout the State from four and six cents per mile, as at present ruling, to three and five cents, took place to-day at Fourth and Townsend streets. In consequence of the absence of Commissioner Rea, who was unavoidably absent, no decisive action was taken.

A discussion took place between the Commissioners and Senator Stanford on the subject, in the course of which the fact was elicited that the Southern Facific Company are not opposed to a reduction in their present rates. It is probable, therefore, that a basis of agreement will be arrived at by which substantial reductions will be made in fares throughout the State. or made in fares throughout the State.

Another conference will take place just as soon as Commissioner Rea can attend, at which time matters will be adjusted and a portion, at least,

-Good Wine Wasted. Copyright, 1887, by the California Associated Press. Santa Rosa, August 22d.—Timothy Hallahan, the San Francisco excursionist who assaulted hotel-keeper M. He furnished \$500 bail and was released. Byrne was insensible tor

several hours after the assault, but now is better and will recover.

The real estate sales the last two days aggregate \$200,000. The excitement increases daily, and the real estate offices are crowded with buyers all day. Speculation tends mostly to unimproved city property and tracts of from fifty acres upwards within three miles of Santa Rosa, which can be subdivided.

Last night an alarm of fire brought out the engines and a large crowd to De Turk's winery. It was discovered that the fire was confined to a large wine tank, which exploded from the confined alcoholic vapor, which was being heated in the process of making sherry. A thousand gallons of wine were lost by the explosion.

PHGNIX, August 22d.—T. D. Tewksbury arrived to-day from the notorious Pleasant Valley country, and with him came the news of still further depredations and murders there. From what can be learned of the development of the past few days it would appear that at least two, and probably more men have met violent deaths. The last two to meet their deaths are John Graham and Ed. Tewksbury. Definite information of the immediate circumstances leading to the death of Graham are lacking, except that it was at the hands of Tewksbury. Tewksbury, however, was shot while resisting arrest by Sheriff Mulvenan, of Yavapai county, who is now in that region with a posse of detectives, and he will be a public benefactor if he succeeds in exterminating the whole gang.

WILKEBBARRE (Pa.), August 2d.—[Special.]—
A fearful riot took place yesterday at Glen Lyon, five miles from Nanticoke, in which more than 300 miners were engaged. The place is occupied solely by breakers of the Susquehanna Coal Company. The combatants were composed of men of all nationalities—Irishmen, Welshmen, Hungarians and Poles being largely represented. It is the custom of several Hungarian and Polish merchants of Nanticoke to send peddlers to Glen Lyon daily to supply the boarding-house keepers. The Susquehanna Coal Company pays on Saturdays. For the first time they paid the men at Glen Lyon and at Morgantown on Sunday, which day has always been chosen by the merchants to make collections.

A PREACHER STARTS THE BALL.

Rev. Mr. Taggart, of Glen Lyon, frequently preached against what he called such a desecration of the Sabbath, and finally determined to put a stop to it if possible. Yesterday he organized a posse of his church members for that purpose. The men got wind of it, and made up their minds to resist any overtures of that kind. The collectors made their appearance, as usual, and the natural excitement of the moment was augmented by a universal indulgence in beer and whisky. As the day advanced the church men became alarmed at the situation, and kept themselves in hiding. The feeling of antagonism was so intense that it finally A PREACHER STARTS THE BALL.

It has just granted a subsidy to the Northern Pacific Steamship Company which runs from Vancouver to China and Japan. This company is end-avoring to drive the American line of the Pacific Mail out of the business, a purpose for which the Government at London will furnish the dollars with the liveiest sympapurpose for which the Government at London will furnish the dollars with the liveliest sympathy. If the Pacific Mail is afforded half a chance, however, it will energetically fight this corporation. It has decided to build two new steamships for the China trade, but whether it will employ American ship-builders and sail them under the American flag, subject to the legitimate demands of the Government, or go abroad for them and saye \$200,000 by employing foreign labor and then sail them under a foreign flag, will depend upon the action of the Administration. "The shipping of England, which now earns \$400,000,000 annually and scatters \$1,500,000,000 worth of her exports abroad over the face of the earth, had grown from 300,000 tons thirty years ago to 6,000,000 in 1886. England statesmanship has done this. England knows it pays her people in good pounds and pence to encourage the carrying trade, and it pays \$3,500,000 a year to get its mails to their destination. This country pays only \$325,000, and less than \$50,000 of that goes to American lines. A change in our attitude toward the shipping interests would in twenty years give us absolute control of the South American market and the masterhand in the delivery of the world's grade."

An Engineer Runs His Train Though His Skull is Split Open. Skull is Split Open.

New York, August 22d.—The World's Atlanta special of August 21st says: Andrew J. Ford is dying from the effects of a murderous blow at the hands of a negro assailant. The scene of the affray was near Surrency, a little place in Appling county. Surrency is about ten miles form the East Tennessee river, and is a small town which has grown up about McDonough & Co's mill. ugh & Co.'s mill.

ough & Co.'s mill.

From the mill to the East Tennessee there is a private railroad and Ford is the engineer. A week ago Friday, while running toward the mill, something was found to be the matter with the track, and Ford ordered the mill hands who were on the train out to fix the track. All obeyed except a negro named John Pinkerton, who absolutely refused. "All right," said Ford; "then you can't ride on my train."

A few minutes later Ford looked up from his work and saw Pinkerton coming toward him with an ax in his hands, as if to strike him. Ford started toward his engine. He was unarmed, and missing his footing fell on his knees. Just as he did so Pinkerton rushed up and buried the ax in his skull and made his escape Ford staggered to his feet, and getting on his engine held his skull together with his left hand and with his right managed to run his engine to Surrency. When he got there he became unconscious. Physicians did all in their power for him, but he became worse. Yesterday he was moved to Atlanta for treatment, and to-day Dr. Howell removed several pieces of the skull. Howell removed several pieces of the sku ford is unconscious and will probably die lore morning. It is said on good authority the negrowas caught and lynched, but the fiskept quiet because there are five times many negroes about Surrency as white men.

On the theory that the Labor party is now in the field to stay, and as it must draw its principal su-tenance from Democratic sources, the success of the Republican ticket next fall is morally certain. Tammany politicians challenge the correctness of this conclusion, and intimate that it would be well for the Republicans to wait and see whether the Democratic State Convention will not deem it good policy, under the circumstances, to adopt the Labor clause, and thus pave way for a practical fusion with them at the polls. Totally ignoring the tariff question is a disappointment to the Republicans. Colonel Mendell's Report on the Rotten Condition of the Harbor Defenses. Copyright, 1887, by the California Associated Press.] [Copyright, 1857, by the California Associated Press.]
Washington, August 22d.—(Special)—Colonel G. H. Mendell has submitted his annual report on the condition of Fore Winfield Scott and other defenses at Fort Point, San Francisco, for the last fiscal year. The fort is not garrisoned, and no keeper has been employed since August, 1886. There being no funds, the work as a whole remains in practically the same condition as stated in the last report. The gun-casements and magazine are in good condition, but the weather has rusted the embrasure irons and disintegrated the painting and mortar in the brick work. None of the buildings, except the

stored in the basement, greatly exposed to injury from dust. A suitable building for storing them is greatly needed.

At Lime Point the porch of the men's quarters and officers' buildings need repairs. The buildings are not protected from fire, because the tank is unserviceable, and much of the stored property is in doubtful condition as to future service. All the roads, culverts and bridges will soon be in need of repairs. Owing to the lack of funds the usual painting and whitening of the buildings, fences, etc., has not been done. The parapets and slopes of the batteries have been burrowed by gophers, and the slopes are all in need of renewal, and \$500 is asked for the restoration and repairs of buildings and property. The restoration of the water supply is urged.

At Fort Maxon no funds were received during

property. The restoration of the water supply is urged.

At Fort Mason no funds were provided during the year and none recommended for the coming year. The battery is unserviceable, and the works form no part of the system of fortifications proposed for Point San Jose.

At San Diego the earthwork in the rear of Ballast Point commands the entrance to the harbor. The battery is unfinished, and in the same condition as when its construction was suspended in 1874. The large increase in the population of San Diego causes more trespassers than formerly to visit Ballast Point, and increased danger from fire, to which the property is exposed, from an insufficient water supply.

WAR TO THE KNIFE. Drive George to the Wall.

New York, August 22d.—[Special.]—There was a big gathering of coeialists in the Volks Zeitung office this forenoon, and preparations were made for an indignation meeting at Cooper Union to-night. The coeialists say there will be more than 10,000 men in the Cooper Union to-night. Arrangements have been made for open air addresses in case it is filled. The Socialists mean fight. They denounced Henry George, McGlynn, McMackin and other supporters at the meeting to-day, in a way that indicated that a reconciliation between the two factions is out of the question. The mass meeting to-night will, it was said, result in the determination to put up candidates against the George men for all except the State offices.

Most of the Socialist leaders seem to be in favor of voting for all the labor candidates on the State tickets except. George. They can effectually down George by making him come out many thousands of votes behind his ticket. They claim to control 25,000 of the 68,000 votes cast for George last year for Mayor.

A COMPLIMENT TO HENRY GRORGE.

New York, August 22d.—There was a large meeting of Socialists at Cooper Union this evening, called to denounce the action of Henry George. Speeches were made and resolutions adopted denouncing George, his platform and his following. Every mention of his name was the signal for hisses and cheers. A red flag was carried into the hall and waved from the platform amid great applause. ON THE DOWN GRADE.

to Powderly. opyright, 1887, by the California Associated Press. New York, August 22d. — [Special.]—The Home Club was completely routed yesterday in District Assembly No. 49, in the selection of Selegates to the Minneapolis Convention of the Knights of Labor. The opposition elected eleven out of the twelve delegates. The members of the Home Club left the hall at daybreak this morning in high dudgeon. Their defeat has been so complete that many spoke of disbanding and leaving the order of Knights of Labor. At the Richmond Convention the Home Club was the power behind the throne. Since cention last year there were twenty delegates, each representing 3,000 Knights. This year only twelve are elected on same basis of representation. This shows a net loss of 24,000 in less than

She is directed to pay him from time to time such sums as are necessary to maintain him in the station in which he has been accustomed, all to be free from the control of his creditors.

Still Expecting War. CHICAGO, August 22d.—The News' Washingto pecial says: Charles Williams, the widely icle, visited Washington last week for the purpose of seeing General Sheridan. Speaking of European affairs, he said it was hardly possible for another year to pass without a war. His idea is that there will not be a war between Germany and France, but that England and Italy will unite with Turkey in a grand combat with Russia. When he left England General Wolseley advised him not to be absent after March, 1888, and he will make no engagement beyond that time.

CATCHING THE IMPETUS.

Says the Los Angeles Herald :

If Angelenos were really not heartily glad at the prosperity of the whole State now would be the time for indulging in jeremaids, for the reign of prosperity seems to have set in for the whole commonwealth. Even Sacramento has caught the impetus, and her newspapers will doubtless, if the movement shall keep up, find it more congenial to register local improvements than to snar! of the progress of their neighbors. Thus we shall as benefit by this new and highly pleasant dispensation. There is no hesitancy on our part in

GENERAL NOTICES.

I have been an annual sufferer from Hay Fever for 40 years. It recurring about August 20th each year. For several summers I have used Ely's Cream Balm with excellent results. I am free from Asthmatic symptoms. I hope many sufferers will be induced to try the remedy. GEORGE EARP, Baltimore, Md. fe8.1v

I have been afflicted with Hay Fever from early in August until frost. My eyes would run a stream of water and I sneezed continually. I was advised to try Ely's Cream Balm. It has worked like a charm and I can say I am entirel cured. MRS. EMELINE JOHNSON, Chester, Co

I can cheerfully recommend Ely's Cream Balm to the suffering public for Hay Fever and stoppage of the air passages. I have tried it and find it gives immediate relief. J. E. RECTOR, 209 Rock st., Little Rock, Ark fe8-ly

Two officers are in this city waiting for him, and since learning that their man is in Mexico, other warrants charging the fugitive with a more serious crime than obtaining money under false pretenses, have been issued. Under these warrants extradition will be asked for; and while the papers are being prepared, Pritchard will be shadowed, an officer having been sent down on last evening's steamer to do the work.

Sacramento Colonization Company.

A meeting of the Sacramento Land and Colonization Company-organized a few months ago, with a capital stock of \$500, 000, for the purpose of purchasing a large tract of land for colonization purposes, the scheme falling through, however, because of some disagreement between the company and the owner of the land—was held last evening, at which it was determined to dissolve the organization. Its members then met with the "Boom Fund" Committee, and it was resolved to form a corporation for the general purpose of buying land, improving it by irrigation and other wise, cutting it up and disposing of it to actual and other desirable purchasers. The name adopted for the new association is the "Sacramento Colonization Company." Its capital stock is to be \$100,000, in shares of \$100 each. Ten per cent. of each subscription is to be deemed due at the discretion of the Directors. A committee of five, consisting of E. K. Alsip, S. C. Denson, Frank Miller, Ed. R. Hamilton, and D. Two of the officers of the public school great blowing of whistles and a babel of at Elk Grove came to the city yesterday, a Notary Public, toresident Willows, Colusa outcries on I street, between Third and and reported at police headquarters that their school building had recently been ple astir at the time in the vicinity, and burglarized and its library robbed of encyclopedias and other books. As Edward Haffey, the young man under arrest for

burglarizing the Washington District school-house, had been in Elk Grove frequently, and was so presistent in his endeavor to sell books to the School Trustees, offering to take old ones in part payment, that he became annoying, he was suspected that he became annoying he was suspected of having taken the property when the robbery became known. The police took steps to ascertain whether such books were disposed of in this city, and it was found that Haffey had disposed of certain volumes belonging to the Elk Grove library. He had cut blank leaves from the books and pasted them over the library label. Chief Dillman moistened them with water, removed them and found beneath the Elk Grove name, with library number of book, etc. At this season of the year the schools in the country are closed, and, as the buildings

Jones—That is true.
Robinson—Well, that is the way I look at it. I could have married her myself.

Jones—You could?
Robinson—It's a fact; but I counted the cost and drew out just in time. Fortunate, wasn't it?
Jones—Very.
Robinson—But tell me how you managed to break the engagement. Mine hadn't quite gone that far.
Jones—I didn't break it.
Robinson—Oh, she did it herself, did she? But perhaps I ought not to say anything about it. I suppose, of course, you broke it yourself, as she was so anxious to marry, and everybody knows that.
Jones—Oh, you needn't apologize. I'm not worrying at all about it.
Robinson—That's good. I like to see a man keep a stiff upper lip. Might I induire what made her break it?
Jones—Oh, she didn't break it, either.
Robinson—Well, that's strange. Then it must have been her father.
Jones—No; he had no objection.
Robinson—Then how did you manager.
